

Sealfence™ Portable

A mobile acoustic deterrent device perfect for offshore construction and commercial fishing

OTAQ Sealfence™ Portable is a mobile acoustic system designed to deter seals and sea lions in a wide range of underwater situations.

Sealfence Portable uses OTAQ's unique acoustic system which is used in over 1000 systems deployed worldwide and has been proven effective across Europe and South America with many species of seals and sea lions. The system uses a robust, underwater projector (fitted with 25m of Kevlar reinforced cable) to emit an omnidirectional sound which seals and sea lions will find uncomfortable at anything inside the system's 40m effective range.

The compact control unit features a built-in battery that will allow up to 7 hours of continuous use from a single charge. It ships with an external mains AC charger designed to fully recharge Sealfence Portable in 6 hours when back on dry land. A compact waterproof remote control allows the system to be automatically started and stopped.

Sealfence Portable's control unit is fully waterproof with the lid closed, ideal for the most demanding weather and sea conditions. The system is splashproof with the lid open.

Sealfence Portable is ideal for a wide range of applications including commercial fishing (jig fishing, long lining, trawling, fixed net), sport fishing, temporary aquaculture use (during net changes, grading, harvest) or in offshore construction.

Sealfence™ Portable

A mobile acoustic deterrent device ideal for offshore construction and commercial fishing

Sealfence Portable Control Unit

Supplied with removable hooks for mounting on a boat

Waterproof remote control allows remote start and stop of the system

	Sealfence Portable		
Model	UK Model	Euro Model	Chile Model
Control Unit Dimensions	430 x 244 x 341 mm		
Control Uni Weight	11kg		
Charger Input Voltage	100~240v AC /- 47~63Hz		
Charging time	6 hours		
Battery Life	Up to 7 hours		
Effective Range	40m		
Target Species	Most species of pinnipeds (please check with us)		
Ships with	Boat hooks, shoulder strap, external AC charger, 2 x remote controls, user manual		
Part no	A0202	A0203	A0204
